

At the risk of sounding pompous, but...

### **Put your house in order!**

Dear soulmates, This age is quickly drawing near its summit. It's time for contemplation and a reviewing of our lives. Why is this the case? This opposition age of more than 2700 years has been a harsh and turbulent period. It started around the year 702 BC and will stretch out to 2052 AD. For mankind, this timespan has been about developing emotionally and becoming mature and balanced individuals. You could liken it to a university, where you graduate towards the end. Who will decide if you pass the test or not? It's really man himself being the judge, since the decision is a '*choice*,' not a process of evaluation. Jesus Christ is the leader, who has ransomed a certain part of humanity. The individual in question thus has to subserve and accept Jesus as leader and King.

We don't know exactly when the 'salvation' (the Rapture) will take place i.e., when the 'chosen ones' will be taken home by the angels of God (an alien species). Likely, this event is close to the 'Great Earthquake' spoken about in Revelation. This quake is estimated to happen around 2034 AD. The period between this point in time and the following global pole shift around the year 2054 AD is possibly identical with 'the wedding banquet,' where "*many are called but few are chosen*". The ones getting married are Christ (the star Nibiru) and the bride 'Astarte' (our own Sun). An epic cosmic meeting is close at hand. There will be cataclysms and tumultuous events taking place on Earth, but a chosen congregation will be saved and taken aloft.

For those stuck in certain habits and traditions, it might be hard, there and then, to change their lifestyle. It is therefore advisable not to wait with reforms and changes until the last moment. Instead, you would want to reacquaint yourself with the old rules of virtue so as not to be overwhelmed when the time comes. Prayers, a sound lifestyle, and good deeds are a solid base to stand upon in these times. Nobody needs to atone for injuries done in the past. The concept of 'grace' is about changing lifestyle. When the individual confesses his or her faith in Jesus Christ, God will abolish all wrongdoings committed. The individual starts anew, born again, on a new path.

\* Where are we taken? - Likely to another planet and its 'Inner Earth,' a very physical but still paradisaical place with prosperous living conditions.

\* What's the duration of the stay? - Only a short period (18 years), in which we prepare for the 'Millennium Kingdom.' This epoch is physical but comes without war, starvation, and hardships.

*JRSN*
